

Family Care Indonesia

July 2014

In April 2014 we received an Email from Dinar an Indonesian woman living in Australia requesting that Family Care Indonesia assist her to locate and visit an orphanage in Jakarta. Obviously we were enthusiastic about it and decided to go to "Kami Satu" so here's what happened as we followed this opportunity.

Much thanks to Dinar and her family who gave their time to share blessings with the orphans at Kami Satu.

In August we visited Kami Satu again but this time with David and his family. They were moved to share their blessings and we were happy to help them!

The most precious thing that we can give to the children is our love and our time, and you can never lose by giving.
